

Madagascar

"Madagascar is a young country. Almost half of its population is under 20. These young people need a perspective for their future. Education and training must be improved ..."

German Federal President Horst Köhler
(6. April 2006 at the state banquet in Antananarivo, Madagascar)

The island of **Madagascar** – famous for its vanilla and its pepper – is situated in the Indian Ocean about 400 km off the African east coast. Due to its size and biodiversity it is often referred to as a 'mini continent'. Madagascar's long isolation from the neighbouring continents resulted in the evolution of one of the most precious ecosystems of unique fauna and flora. The cultural diversity of Madagascar derives from the Asian and African heritage of its 18 various ethnic groups.

The association

'**HARY**' stands for 'harvest'; the related term '**MIHARY**' describes the quest for a life task, which is the basis of all progress. A Malagasy proverb says: 'He, who doesn't find a life-task when young, will be empty-handed when old'.

We found our task in giving disadvantaged children a perspective by enabling them to have access to education. The name **NY HARY** shall encourage our students to find a life-task in order to make their own contribution to improve their life conditions.

Since its foundation in 2004 our association has achieved a lot. At the beginning of the school year 2005 we could already feed 100 students a warm meal per day. Since October 2006 we have facilities to house and to care for 72 students around the clock. Additionally a further 70 students receive a warm lunch.

At their state visit of Madagascar in 2006 the German Federal President Horst Köhler and the First Lady highlighted the commitment of our organisation as "... a small but important contribution ... to open up opportunities to the young generation".

The entire NY HARY-Team in Germany works voluntarily. Our **president Stefan Büschelberger** ensures earmarked use of subsidies on site. The children in Madagascar directly profit from your aid with less than 1 % spent on administration.

... helping children of Madagascar

NY HARY Deutschland e.V.

Association
to promote youth-education
in Madagascar

www.ny-hary.org

Our project

The **children's village 'Antseranantsoa'** ('safe haven') in Miarinarivo, Madagascar facilitates access to education for children from rural areas.

The **dormitory** accommodates approximately 80 students who originate from remote rural areas and attend schools in Miarinarivo. These children receive nutritious meals, clean drinking water, hygienic living conditions, medical care and pedagogical support.

The **school lunch** provides some 120 primary school students with a healthy warm meal on schooldays. These pupils originate from particularly poor families in Miarinarivo and nearby villages.

The **educational centre** is one of Ny Hary's most important tools in advocating youth education. The presence of students from surrounding areas allows for development aid with broad impact. Practical topics such as health issues, hygiene, environmental protection and agriculture furnish students with the tools needed to improve their own lives, creating ambassadors for progress when returning to their home villages. We convey values of mutual respect and social responsibility in everyday life.

The eight acre **agricultural facility** supplies the centre with a variety of produce while providing display areas and training gardens. Environmentally friendly supply of electricity and water by means of solar energy and wind power teaches students responsible use of Madagascar's natural resources.

How to help

Membership (36/18 Euro p.a.)

You can achieve a lot with a **membership**. 36 Euro provides for example school lunch for one student for the period of one school year. For students and apprentices the membership is just 18 Euro p.a.

Scholarship (10 Euro per month)

With a scholarship you'll give a Malagasy student access to better education. In order to assist children from especially poor families we keep admission fees as low as possible. With one scholarship you finance expenses which improve the actual living conditions of a student such as safe accommodation, clean drinking water and nutritious meals thus securing a successful school attendance. We support our boys and girls with one further scholarship in order to ensure a rich curriculum of our educational centre. We assign a student to each donor and leave it up to you to take up mail correspondence with your protégé.

'Schoolmate'-grant (4 Euro per month)

The sponsor (e.g. a single student or an entire class of pupils) signs part of a Malagasy student's admission fee to our center. This helps children of extremely poor families who aren't able to afford their education. Via exchange of letters students can get to know each other better.

Project sponsorship (10 Euro per month)

This sponsorship supports the project in general without particular adoption. This improves sound long range financing of the center's operation, especially of the the free school lunch.

Sponsors will receive NY HARY newsletters regularly

Yes, I want to help

Please tear stub and send it to

NY HARY Deutschland e.V.
